

Notice on Token Swap of BTour Chain Project

[2020.01.03]

* We are currently in the process of token swap (BTOUR->MSOT) of BTour Chain project's main token. The reasons for the swap are as follows:

1. Upgrading the existing token to make it more compatible with soon-to-be launched Metaverse SoT business.
2. Burning 0.2 billion tokens to increase the value of the token by decreasing the supply.

- **Token Supply=> 1.8billion (Previously 2.0 Billion, burnt 200million token)**

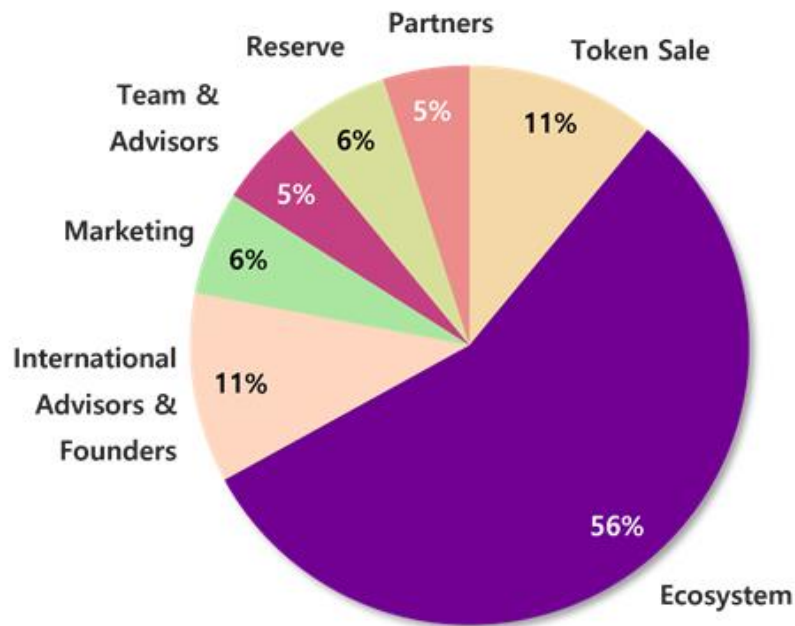

- **Swap Ratio=> 1:1**

- **Updated Smart Contract**
